

Minutes of the MD50 Airport Committee Meeting via Zoom

June 11, 2020

Attendees:

John N
John A
Don B
Sharon & John M
Dee & Bernie W
Ed H & Sylvia S
Pete W
Buck B

A couple of attendees had technical problems with using Zoom.

Airport Manager's Report:

- Received 2020/2021 Airport Registration from MAA in April
- Some unauthorized vehicles on airport were reported to the GM this month.
- All mower equipment up and running well; grass mowing going well
- Updated P&P 9 reviewed at Feb Committee meeting submitted to GM/BOD – may be agenda item at this month's BOD meeting

Pavilion Updates:

- Still need about \$10,000 to cover the engineering and County requirements for ADA, etc.
- Several companies have been contacted asking them if they would donate to the CRE 501c3 fund; the companies have expressed an interest in doing so, but no donations have materialized to date and there is no way to know if funds will be forthcoming .
- The airport pavilion should be an agenda item at the next POACRE BOD meeting in a couple of weeks. To not prolong this project, the only options at this point appear to be 1) borrow funds from the airport reserve fund and maybe repay them by doing yard sales, receiving future donations, etc. or 2) return the donations collected to date to the individuals who made them.

Safety Meetings:

- Pete W took an action to put together a safety presentation meeting via Zoom on July 2nd 7:30pm
- *VMC are now being conducted by the local EAA Chapter which qualify as safety meetings for POACRE Pilots.
